DETAILED ACTION

Response to Arguments

Applicant's arguments filed 3/5/04 have been fully considered but they are not persuasive. The omission of a step/element i.e. pre-breaking, does not result in patentable subject matter.

Claim Rejections - 35 USC § 103

Claims 5,7,11,12,14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rogers et al. In figure 2 Rogers et al discloses the basic process and apparatus except for the use of a pre-breaking step. However, elimination of a known step/element and it's function does not result in patentable subject matter. Therefore, in order to reduce process/apparatus costs, it would have been obvious for one of ordinary skill in the art to modify Rogers et al by eliminating the pre-break step, since this type of elimination would have been an obvious modification by one skilled in the art.

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Rogers et al as applied to claim 5 above, and further in view of Giguere. See the previous office action for this rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3725

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
